

REFERENCE AND INFORMATION SERVICE

In this place, you can solve any doubts related to the role and use of different services and resources provided by the University Library.

LIBRARY CATALOGUE

This section provides you details about the collection of the University library (books, journals, videos, CD-ROMS, DVD, offprints, PhD theses...).

You can log in **My library** with your university login and password and check your user profile and the following options: consult and renew your book loans; make or cancel reservations, select and save your searches, make suggestions and store your favourite web pages. The documents located in Google Books allow, among other services, view its cover, indexes and, in some cases, several chapters in full text. From the catalogue, you can share your comments with other readers about each of the books and other documents that are part of our collection.

SUGGEST A PURCHASE

If you cannot find in the catalogue a title you need, you can apply through our website in **request a purchase** or to fill a **desideratum**.

LIBRARY ISSUE

The book loan requires the presentation of the University card or Library card. The return of **books** can be done at any thematic library as well as in the 24 hours books return drop **boxes** dedicated for these purposes, and are located in the buildings of Educational Sciences, Architecture, Health Sciences, Veterinary and Central Building of the Library. **This rule excludes special items** such as laptops, iPads, CDs, DVDs, which must be returned to the original library.

Laptops and e-book reader loans.

This service is offered for academic purposes. The laptops loan can be for hours, overnight, weekend or weekly. The e-book reader loan is weekly.

• **Interlibrary loan.** This service brings to your library the books which are in another libraries of ULPGC campus. You can be made the request through the catalogue or the **application** form located in the website of University Library.

Self-service library machines. These machines speeds up and simplify the book loan and the return of books. We have two machines, one of them is located at the Main Building of University Library and another is located at the Campus del Obelisco Library.

DOCUMENT ACCESS

The Document Access Service provides you the access to original publications on loan, including books out of stock or difficult acquisition, as well as, reproductions of documents not form part of the University Library's collection.

ELECTRONIC RESOURCES

Faro is the gateway that provides access to electronic resources of University Library: databases, e-journals, e-books, PhD theses, patents, standards, e-prints, library catalogues, web resources, encyclopaedias and electronic dictionaries, digital press, official bulletins...

DIGITAL COLLECTIONS

The open institutional repository dedicated to collect scientific, academic and administrative papers carried out in the ULPGC.

Canary Islands' Digital Memory allows the dissemination freely and free of charge of canary documentary heritage and provides access to a large collection of documents.

Press archive and general interest magazines digitised by University Library staff for disseminating the canary documentary heritage.

REMOTE ACCESS

If you need to consult resources from outside the University, you can log in advance via the remote access system identifying yourself with your university login and password or when you access directly to a restricted resource.

VIRTUAL CAMPUS

The University Library is also present in the Virtual Campus of the University by spreading its services and functions through the information and communication technologies.
